CRITICAL STANDPOINT

In the booklet "Critical Standpoint" you will be informed definitively of the most important accounts which shaped the Coronavirus mainly in NYC but also internationally. How better way of a performance of style and creativity. Completed behind bars- in the epicenter of cases in New York's Correctional Facility. The young writer Raheem Cox begins his writing career out of the most crucial time in American history. If you want a clear summary of news coverage of Coronavirus from beginning to release, this booklet will definitely suit your need. With a simple and easy-to-understand narration for any age. I end off most chapters with a summary of New York City, summarizing stats around the time of the chapters briefing. It also makes you present to an inside look into my confinements at the time.

All of those I shared it with commented it was very well put together. I hope you like it.

How a writer started his career in prison through an epidemic, and now is one of the greatest contributors of this country to literature
